01

You need to see...

- The Signs of True Contentment. v.10
- The Security of True Contentment. v.11-12
- The Secret of True Contentment. v.13

04

The secret is realizing and relishing in already having the greatest possession and position imaginable.

02

Signs of True Contentment

1. Joy when you receive
2. Understanding when you don't

05

God is not asking you to be happy about what you don't have. He's asking to see the value of what you do have.

03

Contentment allows us to be the same people with the same purpose and the same joy no matter the circumstances.

**Things stop mattering.
Relationships matter most.**
